

I am writing in opposition to the decision by Sinclair to show the anti-Kerry documentary. This is an attempt to sway the public in favor of President Bush. This is a slovenly action, and to honor this deception is not the American thing to do.

I request that the broadcast license of Sinclair Broadcast Group be cancelled. To do less would only be a slap on the wrist. In a democracy the citizens place great trust in the media. The media is an intricate part of our checks and balances system, and it is important that our media provide a balanced view so that the citizens can make choices unobstructed by media interference.
